There are many CHILDREN on school lunch programs, who get most of their meals while at school. But when SUMMER vacation comes, they are away from school and may not have FOOD easily ACCESSIBLE. SOS partners with LOCAL care networks, which are places in your COMMUNITY like charities, churches, MENTORSHIP programs, and schools, to provide food to their community. This means children get the food they need to fill their bellies and stay HEALTHY during the summer!

SOS INTERNATIONAL

Providing food to families who need it is part of
how we can build communities together!

A NOTE TO PARENTS

Our heart in designing this activity book is to provide you with a tool that sparks conversations with your little ones. We hope you will be able to take these activities and have meaningful discussions that allow you to share your heart for serving others around the world. The reality is that engaging our children in serving others looks different for each child. It's why we don't provide a lot of answers here.

Ultimately, the hope is that through the conversations you have with your littles, you are able to help steward their gifts in such a way that they can use them to serve others. We value the work of investing in our children to build their hearts and worldview. We want to raise children who love big and want to change the world!

Our focus in this book is on building communities. As children learn to serve their communities, they become builders of their communities!

Thank you for all you do and for being a part of this community!
