

# SOS Staff Holiday Stroll

## Memories

*Memories are cherished and shared with the next generation which make them special. Use some of these to build community in your space or to add to your memories for generations to come! Take it a step further and share them with those who don't have family nearby or a place to call home.*

Making gingerbread houses with the cousins and taking them to an assisted living home for the staff to display

The girls having matching pj bottoms

Popping fireworks on Christmas Eve as we wait to open our gifts and play with our siblings and cousins

After gifts were opened, having a cousin "indoor snowball fight" with gift tissue paper

Playing Christmas cassettes and the older cousins sharing scary stories while the adults would do their white elephant gift exchange

My grandparents gave my brother and I classic car ornaments every year till we were 21. Now we are able to decorate our Christmas trees with these ornaments

## Family Activities

*Fun group activities that are easy to share with your loved ones to bring a little more joy this holiday season. Invite your neighbors for even more fun!*

Family board games for a little healthy competition and lots of fun

Seran-wrap gift ball every Christmas

Waking up early and "camping out" to wait on the Dallas Christmas Parade

Christmas Eve with the extended family for a big dinner, games and opening presents at midnight
